The amount of gold dust imported into the Sydney branch of the Royal Mint during the week ended to-day, 8th July, for the purpose of coinage, has been 8258 ounces. No gold coin has been issued this week.

The Western, Southern, and Northern escorts have arrived during the week from the several gold-fields, and delivered at the Sydney branch of the Royal Mint the following quantities of gold dust:—Western, 691 ozs. 17 dwts.; Eastern, 520 ozs. 13 dwts. 8 grs.; Northern, 689 ozs. 11 dwts. 18 grs.; Tambora, 181 ozs. 2 dwts. 9 grs.; Orange, 46 ozs. 17 dwts.; Stony Creek, 112 ozs. 12 dwts. 12 grs.; Southern, 101 ozs. 14 dwts. 8 grs.; Braidwood, 2233 ozs. 9 dwts. 12 grs.; Tumut, 1546 ozs. 9 dwts. Northern: From Rocky River, 492 ozs. 7 dwts.; Nundle, 837 ozs. 14 dwts. 14 grs.; Tamworth, 66 ozs. 13 dwts. 22 grs.; From Fairfield, 90 ozs. Total amount received during the week: 8005 ozs. 16 dwts. 21 grs.

The banks have raised the rate of exchange on London. The buying rate for bills on London at 60 days' sight is now 1/4 per cent. premium, and the selling rate 3/4 per cent. premium.

The share market has been quiet this week, and the transactions that have taken place have been few and to a moderate amount. In the commencement of the week the prices of all securities were firm, but on the receipt by telegraph of the English news, that a great fall had taken place in Consols, on war having been declared between France, Sardinia, and Austria, holders were more disposed to sell, although they are not inclined to accept lower rates. This news, however, has put a check to business, and buyers are unwilling to make investments until the rates ruling in the London market are known and they have received their advice. It is very evident, therefore, that the present high rates of almost all our securities cannot be maintained should sales be forced; and although we are not generally much affected by the fluctuations in the English markets, still the unsatisfactory character of the news is such as must necessarily cause a decline in the share market here. The following are the rates at which sales have been made during the week: Bank of New South Wales, £400 per share; Australian Joint Stock Bank, £400 per share; with right to new shares, £15 per share cum div.; new shares, £2 10s. and £3 premium per share; Sydney Insurance Company, 32s. per share.

Government debentures were very firm at the beginning of the week, and terminable due in 1876 were sold at 102 1/2 and interest; due in 1860, 101 1/2 and interest; terminable, 98 and 99 and interest. Since the arrival of the English news, Government debentures are not quite so much in demand, and may be quoted about one per cent. lower. Australian Steam Navigation Debentures have changed hands at 1/4 per cent. premium and interest.

The following general abstract, showing the average amount of the liabilities and assets of the English, Scottish, and Australian Chartered Bank, within the colony of New South Wales, taken from the several weekly statements during the quarter, from the 31st of March to the 30th of June, 1898, is published in to-day's *Gazette*. Liabilities.—Notes in circulation, £3,600,000; interest £31,669 7s. 9d.; bills in circulation not bearing interest, £1775 7s. 11d.; deposits not bearing interest, £80,215 10s. 7d.; bearing interest, £171,986 6s. Total amount of liabilities, £3,856,616 12s. 3d. Assets.—Coin and gold, £18,141; landed property, £20,633 4s. 4d.; notes and bills of other banks, £257 13s. 10d.; amount of all debts due to the bank, including notes, bills of exchange, and all stock and landed debts of every description, excepting notes, bills, and balances due to the said bank from other banks, £274,046 18s. 5d.; total amount of assets, £394,404 18s. 5d. Amount of capital stock paid up at date of last dividend from London, £300,000. Rate of the last dividend declared to the shareholders, 4 per cent. per annum. Amount of the last dividend declared, £10,000. Amount of the reserved profits at the time of declaring such dividend, £250,404 18s. 5d.

Mr. R. P. Richardson has sold by private contract a block of land having 33 feet frontage to Kent-street, with a depth of about 50 feet extending down Market-street, and a weather-boarded cottage thereon, for £1225; also, a weather-boarded cottage in Clarendon for £100. The important news by the *Salsette*, which arrived at Adelaide on Tuesday, had the effect of putting a stop to business, and until advice is received there is no desire to enter into any speculations. The report of the heavy shipments made during the month of April has also tended to check the demand for most descriptions of goods which were beginning to command improved rates.

**FLOUR.**—The market is very firm and holders do not appear disposed to sell at present quotations. We have heard of sales at £22 10s. per ton. There appears to have been great speculation for the rise in Melbourne during the past week, but this has had no material effect here. The millers continue to quote fine flour at £27 per ton; seconds, £25 per ton. Wheat is scarce, and is worth 10s. to 10s. 6d. per bushel.

**LICENCES.**—The transactions this week have not been numerous, or to any extent. Brandy is firm, and Martell's is worth from 10s. 6d. to 11s. Rum is steady, and 30 op. is quoted at 4s. to 4s. 3d. The speculative demand for Geneva has subsided; JD&K is saleable at 15s., and key at 15s. 6d. In wines, there is no alteration to notice. Beer in bulk is not quite so firm, but we have not heard of any sales under last week's quotations. Porter in bulk continues scarce, and prices nominal. Bottled ale and porter remain without any alteration in price.

**DRAPERY.**—The news from England of heavy shipments has caused this market to be somewhat depressed at present; there has been but little doing, but it is anticipated that prices of most goods will rule lower.

**SUGARS.**—We hear of large sales of refined sugar by one of the companies at a shade below last quotations. Raw sugars are not inquired for; and at the auction sale of the Concorde's cargo a considerable decline was established. The advances per *Salsette* indicate a slight fall in the London market, caused doubtless by the increased value of money. The Colonial Sugar Company's prices are given as follows: Loaf, £28; snowdrop, £24; crystals, £48. No. 1, £25; No. 2, £24; No. 3, £23. Treacle, £25 to £26.

**TOBACCO.**—The stock of negrohead in bond comprises not more than about twenty-five half-hundred, and that is distributed amongst almost as many dealers. An unusual large amount was paid into the Customs by one in the trade yesterday, showing an increased demand upon our very limited stocks. Several vessels are at Melbourne with large parcels of tobacco direct from the States, all of which have passed from first hands. We cannot quote prices until the market is more settled.

The following is taken from a private telegram received from Melbourne at eight o'clock last evening:—Flour advancing, now £30; American lumber rising, £15 is quoted; Geneva, 15s. 6d.; no change in oats.

**BARTON'S SHARE LIST.**  
The share market has been quiet this week, until advice was received of the arrival of the London mail at Adelaide with news of the declaration of war between France, Sardinia, and Austria. In the meantime, and on the contrary, shareholders are not disposed to sell, and prices have been maintained. We have heard of sales of shares at the following rates: Bank of New South Wales, £400 per share; Australian Joint Stock Bank, £400 per share; with right to new shares, £15 per share cum div.; new shares, £2 10s. and £3 premium per share; Sydney Insurance Company, 32s. per share.

## 9

Only a short walk from George-street. This sale, which is bona fide, affords a most eligible opportunity for securing a faithfully built house, which, including its position, combines everything that could be desired in a city residence.

Terms at sale.

Small capitalists seeking a snug and comfortable home-  
stead in one of the most fertile and improving districts of  
the colony, with water carriage and good markets for pro-  
duce, should not allow this opportunity to pass, for it is  
seldom that a property of this description, so complete, and  
with so many obvious advantages can be secured.
